Join the **8th European Conference on Sustainable Cities & Towns - Transformative Action: the potential for Europe** (27-29 April 2016, Basque Country)

This flagship European conference on local sustainable development will bring together local and regional government representatives, European and international institutions, multilateral organisations, members of the research community, business leaders, and civil society.

**#Basque2016** will allow participants to capitalise on the growing momentum for actions that transform cities into truly sustainable areas. The programme will reflect the latest in the field of sustainable development, including the newly-adopted Sustainable Development Goals, the results of COP 21 in Paris and the emerging Urban Agenda for Europe. Participants will have the opportunity to discuss new strategies for cooperation and financing, the role of social innovation, and other ways to bring transformative actions forward.
